

SHIFT PROGRAM

SHORT COURSE IN TRANSFERABLE SKILLS TRAINING

ABOUT THE PROGRAM

The SHIFT Program is a 9-month program designed to assist PhD Graduate Students in Biomedical Sciences with developing transferable skills needed to launch and sustain a successful biomedical research career.

PROGRAM GOALS

1. Increase student awareness and development of transferable skills needed to transition into their 1st job with confidence.
2. Provide a practicum experience for participants to hone skill development.
3. Develop and implement an individual development plan to prepare for a career that aligns with their skills and interests.
4. Identify career options that complement student strengths identified by self-assessments.

DURATION

Nine month program beginning March 2025. You must be able to commit to monthly meetings, the in-person short course offered June 9-13, 2025 in Washington, DC, and annual follow-up meetings & surveys.

BENEFITS

- Increased Confidence and Self Awareness
